## SERVUS

Newest in injection molding  
Triple density Technology®  
Very comfortable and durable

USA MADE

- **3** specially formulated PVC compounds
- **3** areas of added performance:
  - **Blue upper:** flex and snug fit around heel
  - **Black outsole:** abrasion resistant - long wear
  - **Red midsole & tread:** grip, wet or dry
- Ergonomically designed for cushion, flex and fit
- Injected molded 100% waterproof guaranteed
- Steel shank is heavier and fully bridges heel and instep
- Made in USA

Order: 75126 **Sizes: 5 -11 Women's**

**Triple Density Technology** combines formulations for boot **uppers** to resist a cross section of chemical or acid deterioration. Designed to protect against common agricultural chemicals, fertilizers, and animal waste. **Outsoles** are dual compounded for tough, long-wearing support. The **centersole** is compounded for cushioning and traction on slick surfaces.
