

LOTS OF BOOTS CLAIM TO BE TOUGH. ONLY THE BEST ARE...

XTRATUF®

- Made of dipped neoprene for maximum durability and comfort. The layered construction gives you superior quality boots that can take on most any job.
- XtraTuf neoprene boots mean long-lasting wear for commercial fishing and fish processing, meat packing, food processing, dairy, and petrochemical applications. Each boot features extras like a Chevron sole for sure-footed traction, a cork-cushion insole for comfort, improved ankle fit for enhanced support and all nylon lining so they slip on and off easily.
- A reputation among workers all over the USA, the name for tough neoprene boots is XtraTuf.
- 100% waterproof guaranteed.

Men's Non-Insulated

Men's Insulated

Code	Toe	Ht.	Sizes
22274.00	plain	16"	5-14
22273.00	steel	16"	5-15

American made

Newest in injection molding - Comfort and Durability

Gray Max and Gray Pro

3 specially formulated PVC compounds

1. **Gray upper:** flex and snug fit around heel
2. **Black outsole:** abrasion resistant - long wear
3. **Red or yellow midsole & tread:** grip, wet or dry

- Fatigue-fighting footbed, extended steel shank
- Injected molded 100% waterproof guaranteed

Gray Max - gray & red - plain toe

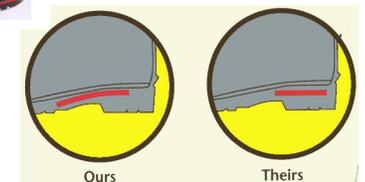

Farming, construction, landscaping, outdoor, gardening
Code: **RDMP00** (graduated heights) sizes: 3-15

Women's Blue - blue & red - plain toe

Same features as Gray Max but built on a lath for a women's more slender foot. Code: **RDMB00** Women's sizes 5-11

Gray Pro - gray & yellow - steel toe

Premium compounding for more caustic applications: Meat, petroleum, chemical, and food processing, canneries
Code: **RDPS00** (graduated heights) sizes: 3-15 (5-13 women's)

Steel shank is heavier duty and fully bridges heel and instep. Foot bed is molded & designed to reduce fatigue and add energy to every step.
